

# Sheathing Cutter Model MS2000

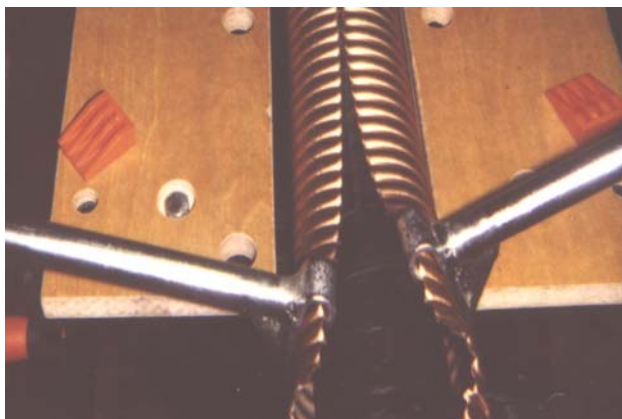

## Description

- The MS2000 consists of a heavy duty motor drive with a set of cutting tools optimized for all kinds of sheathing materials.
- The cutting machine comes in a tool box complete with all accessories.

## Benefits

- The cuts are clean and well defined.
- Compared to manual cutting considerable time is saved.
- The depth of the cut can be adjusted by choosing the corresponding cutting tool.
- The heavy duty design allows to cut through the total depth of the sheathing consisting of layers such as PE, Aluminum, Copper and Lead.
- During the process of cutting no hazardous chips are produced.

## Application

The MOS MS2000 Sheathing Cutter has been developed for removing all kinds of sheathing from High Voltage Cables

## Technical Data

Typical cutting speed	1 m/min
Cutting depth	4 - 13 mm
Electric motor	230V/ 50 Hz or 110V/ 60 Hz
Weight	8 kg

## Scope of supply

- 1 Motor drive 230V/ 50 Hz or 110V/ 60 Hz, please specify with order
- 1 Set of 5 cutting tools
- 1 Set of sheathing removing tools
- 1 Tool box
- 1 Operating instruction
